

New Release of Commander Flashing and Marker Lights

Federal Signal announces the release of the new Commander Flashing and Marker lights. With its small surface mount design, the COM1 lights can be mounted in various locations on a vehicle. Flashing models are available with a single flash pattern or steady burn that can be used with an external flasher. Flashing models are available in Amber, Blue, Red, and White. The marker/clearance lights are available in Amber, Green, and Red and have a wider beam spread than the flashing models. White Illumination models are available which can be used to light steps, hose beds, or underneath a vehicle.

The Illumination models are available in a standard surface mount and a 45° angled surface mount. Flashing and marker light models utilize 4 LEDs and the Illumination models utilize 3 LEDs. All models are fully encapsulated to prevent any moisture issues and include a chrome flange and mounting gasket.

FEATURES

- Multipurpose surface mount warning and marker lights; small size allows for various mounting locations on vehicle.
- Flashing models available with a single flash pattern or steady burn to be used with an external flasher. Flashing models available in Amber, Blue, Red, and White
