

New FireRay® Flash Pattern Emulator is Now Available on [fedsig.com](https://www.fedsig.com)

Federal Signal is excited to announce the new FireRay® flash pattern emulator. This new platform allows you to view each FireRay flash pattern for every model and mode available. Try it out today!

HOW TO USE THE FIRERAY FLASH PATTERN EMULATOR

- Click [here](#) or visit <https://www.fedsig.com/resources> and click "Police, Fire, and Heavy Duty Flash Patterns"
- Click FireRay
- Select the model and mode that you would like to view at the top, right-hand side of the page
- Use the arrows to move between patterns or click on a number to view that pattern
 - Flash pattern names are displayed above each selected flash pattern number
 - SAE J595/NFPA 1901 complaint patterns are noted in the flash pattern name
- This application does not work with Microsoft Internet Explorer or Microsoft Edge. Please use a stable version of current browsers such as Google Chrome, Firefox, Safari, etc.
