

Mobile Camera Systems, Now Available

Mobile Camera Systems, from Federal Signal, provide the driver with an expanded field-of-view for enhanced safety during back-up or while maneuvering the vehicle in challenging environments. With a variety of cameras, monitors, and mounting options available, Mobile Camera Systems has a solution for almost any vehicular application.

Features

- > High-resolution Sony CCD cameras for outstanding image quality
- > 5.6" or 7.0" color TFT-LCD monitors available
- > Multiple camera mounting options available
- > Automatic reverse or turn signal camera activation
- > Most cameras have infrared LEDs for night vision and a built-in microphone for enhanced driver feedback
- > Wide 150-degree viewing angle on CAMCCD-FLSHNTSC and 110-degree viewing on all other cameras
- > All outdoor cameras are IP 68 rated (waterproof and dust protected)
- > Multiple camera cable lengths available: 16.5', 33', 49', and 65.5'
- > Digital Video Recorder (DVR) with video and audio feed available
- > Multi-voltage capability (12/24 VDC)
- > Two-year limited warranty

CAMCCD-FLSHNTSC
Bullet/Flush mount

CAMCCD-SIDNTSC
Side mount

CAMCCD-REARNTSC
Standard rear-view

CAMCCD-DOMNTSC
Inside dome mount
(indoor use only)

CAMCCD-BALLNTSC
Ball mount

This system can be ordered as a pre-configured system or as individual components. If ordering individually, consider the monitor size, the type and number of cameras you need (up to 4 per vehicle), and the required cable lengths.
