Obsolescence of "non-flashing" QuadraFlare® models

Federal Signal has added enhancements to the flashing capabilities of our 6x4 and 9x7 styles of QuadraFlare LED warning lights. As a result of these enhancements, the various QuadraFlare models that include a "built-in" flasher circuit now have the option to be used with an external flasher device.

To utilize the "flashing" models with an optional external flasher device:

1) First, refer to the appropriate installation instructions to see all safety warnings and basic instructions

2) Once the lights are properly wired to the external flasher device, then use the integrated push-button to change the flash pattern of the lighthead to either pattern #2 or pattern #3. These patterns are "steady-on" patterns which then allow the external flasher device to govern the flash rate/pattern of the lighthead.

As a result of this enhancement to the "flashing" QuadraFlare models, Federal Signal will no longer be offering the "non-flashing" QuadraFlare models.

Timing

New orders for the "non-flashing" models will no longer be accepted after May 28, 2010. Any new orders received must be for shipment prior to June 25, 2010.

Recommended Alternative

Comparable "flashing" QuadraFlare models are the recommended substitute for the discontinued "non-flashing" models.

Obsolete "Non-flashing models"	Substitute "Flashing" Models	Description
QL64S	QL64SF	6x4, "Split-color LEDs" with COLOR lens, and"built-in" flasher
QL64SC	QL64SFC	6x4, "Split-color LEDs" with CLEAR lens, and "built-in" flasher
QL64X	QL64XF	6x4, "Single-color LEDs" with COLOR lens, and "built-in" flasher
QL64XC	QL64XFC	6x4, "Single-color LEDs" with CLEAR lens, and "built-in" flasher
QL97S	QL97SF	9x7, "Split-color LEDs" with COLOR lens, and "built-in" flasher
QL97SC	QL97SFC	9x7, "Split-color LEDs" with CLEAR lens, and "built-in" flasher
QL97X	QL97XF	9x7, "Single-color LEDs" with COLOR lens, and "built-in" flasher
QL97XC	QL97XFC	9x7, "Single-color LEDs" with CLEAR lens, and "built-in" flasher
